

JOURNAL ENTRY #6 ASSIGNMENT

WRITING ANNOTATED BIBLIOGRAPHY

TASK: Using the formal citation style of your academic major (for example, APA), create a Mini Annotated Bibliography of an article published in a scholarly journal and an article published in a magazine or newspaper. (Please note that you will refer to these articles in your Project #1 Proposal assignment!)

Each entry on your Annotated Bibliography must include the following:

- **A complete citation for the source.**
- **A brief paragraph summarizing the source.** What are the main arguments? What is the point of this article? What topics are covered? If someone asked what this article is about, what would you say?
- **A brief paragraph assessing the source.** How does it compare with other sources in your bibliography? Why is the source useful? Why is the information reliable? Why is this source objective?
- **A brief paragraph of your reflection on the source:** How does it fit into your research topic? How does it help you shape your argument in your Project #1 writing assignment? How can you use this source in your Project #1 writing assignment?
