Journal Entry #5 Assignment

Please click on the link below and complete the Library Research Tutorial. (While the tutorial is designed for first-year students, it's also beneficial for students enrolled in more advanced writing courses.)

https://rise.articulate.com/share/hDCbukjBCOpmgQYw9xyedotoJuQ0gVIO

After you finish the five lessons in the tutorial: 1) Concept Mapping; 2) Finding Information: Let's Start with a Question; 3) How Can You Get Access to the Most Information?; 4) Types of Information Sources and 5) How to Search for Articles: Academic Search Complete, please complete the following two tasks:

1) Click on the link below and create your own concept map based on the topic of Project #1 assignment (Food Inc. issue). Don't forget to save your concept map as a PDF file and submit the map along with your Journal #5 answers to Canvas.

https://library.csus.edu/guides/concept-map/story_html5.html

2) Answer the questions below.

a. Which filters or other features of the database are you using and/or finding most helpful?

b. Explain how the different TYPES of sources you see in your search results might inform your topic

c. List at least 2 ways that you are identifying new keywords.

d. What other aspects related to your topic are you noticing in your search results? How might these new ideas change your search strategy?

e. What is the most difficult thing about this search? What is not working, and what can you change to modify your approach?
